CORPORATION - SHED 5
2934 RUSSELL STREET

What is a Community Land Trust (CLT)? How can my organization determine whether this is the right model for my neighborhood or project? What are the steps?

Join us as we prepare to launch an updated version of our "Community Land Trusts Manual," originally published in 2007, that is designed to answer these questions and more.

Our workshop panel will include attorneys who helped author the manual, as well as representatives from community based organizations who can speak to the need for tools such as CLTs.
